ABOUT NSC

NSC has acquired a very advanced position in the educational and technological environment of the nation. Established in 2055 B.S. by an esteemed group of educational leaders of the society its education system and research-oriented environment are adequate to accommodate, prepare and produce the modern and progressive learning minds who are prepared to leap the threshold of success for living a meaningful life in globalized contexts. The interior environment of the college provides adequate resources for students to engage themselves in the modern technological pedagogy creating the glorifying history of more than 25 years. The dedicated teaching faculties and friendly administrative staff are tirelessly strive to nurture a raw mind to the beautiful future of the nation.

In the course of setting up the history of its academic excellence, NSC has produced many fore-runners in the national job market spread over the professions like medicine, engineering, management experts, law, etc. Collaborated with external educational benchmarks of national and international repute, New Summit College has renovated its institutional systems that are above par of excellence in academic process and technology enhanced which therefore play a vital role to lending potential communities of learners an avenue for innovation intertwined with quality experience. NSC is committed to maintain its top streak in educational institutions in the private sector. To strengthen it, NSC also runs different academic programs in different levels starting from school level to Bachelor's degree and carved its name in all the domains. We believe in producing the graduates that can feel the difference among others and achieve the winning positions.

New Summit College

MESSAGE FROM THE CHAIRMAN

Dear Students,

A destination for 21st century based educational environment for nation building nurtured by expert, dedicated and innovative minds is required to pave a path to compete in global level.

We are driven with the motto to make our student a global citizen. Skilled individual with excellence in academics and co-curricular syllabi would be able to change all the unattainable dreams to the achievable ones. NSC, being a pioneer college of IT and management in the nation has always been one of the first hands to contribute through different programs in same genres.

Located in the heart of the city, NSC offers a family to guide all the students in every step of their pursuit. I as the chairperson of the college, love to take care of all the curricular and co-curricular activities that would be under the banner of our college. In acknowledgement, finally I would take this opportunity as honor to thank you all and welcome to NSC. Let's embark on a new chapter of our journey together. Thank You.

Mr. Ajaya Prasad Dhakal
Assoc. Professor

At our college students get opportunities to learn through regular seminars workshops pre-sentations case studies project works group discussion etc. We also engage them in a wide range of co-curricular & extra curricular activities events.

MESSAGE FROM THE EXECUTIVE DIRECTOR

Dear Students,

Thank you for your interest in new summit college for your further study after secondary education. It is indeed a matter of delight to convey that the New summit college is regarded as one of the leading private institutions in Nepal for +2 education in Science, Management and Law Streams. NSC has earned a high regard for its quality education supported by excellent support services, co-operative alumni net-works, smart educational system, shared commitment between dedicated teachers, motivated students and enthusiastic parents with higher expectations. Furthermore, to meet the need of students, we have established all academic and employment collaborations and MOU with different institutions, corporate houses and companies.

At our college, students get opportunities to learn through regular seminars, workshops, presentation, case studies, project works, group discussion etc. We also engage them in a wide range of co-curricular and extra curricular activities. NSC also encourages students to build professional network and nurtures their talent to expose in the industry and community settings. As the academic director, my primary concern lies on the standard of the college and welfare of the student. The whole team is committed to making the college a benchmark of national educational standard in the field of Science, Management and law .

With full confidence, I assure you that we will put all efforts in place to take your destinations by turning your ideas into results.

I therefore encourage students and parents to visit our college to know more about it and take it as an exclusive center for +2 programs in various disciplines. There is no doubt NSC will be the early bird to achieve the goal and make your dreams come true if trusted. Thank you very much for your co operation and ongoing support.

Thank You.

Mr. Chokraj Dawadi

VISION

To establish and develop such an academic center where a blend of Science, IT, management and social science stands as bedrock in pursuit of nation/world building.

GOALS & OBJECTIVES:

- To develop graduates in area of Science, Management and Law through optimum use of human and physical resources;
- To provide globally competent education in disciplined environment with utmost personal caring;
- To create conducive and research-based learning to groom out the inner talent of the students and
- To maintain corporate relationships with different academic institutions and universities at home and abroad.

MISSION:

- To build a legacy of excellence by providing theoretical, practical and research-based education.
- To develop future doctors, engineers, politicians, scientists, managers, entrepreneurs, IT developers and technical experts through innovative, creative, value based and research based academic practices;
- To initiate sense of social responsibility in the mind of new generation through the activities of corporate level social responsibility and
- To produce skilful human resources in the area of productive and professional jobs.

”

World class infrastructure of NSC, minute care towards students even in a minor issue, excellent academic results with outcomes... so on and so on.

We are grateful to NSC .

”

OUR STRENGTH

- The positive energy that a person possesses can benefit the individual and community.
- The balance of friendly and disciplined environment always brings out the full potential of the people engaged.
- The honesty and ownership of the actions taken by individual helps the community and the environment thrive
- Every student is important and possess special talent and knowledge which will encourage the teaching learning activities to make a progression leap.
- The diversified students enrich the cultural values of the college and provides an ocean of experiences and resources
- We being a home to hundreds of graduates, we must prepare students to face the challenges of this era and succeed in life.
- The premise and whole environment must encourage the atmosphere of academic excellence, intellectual inquiry and critical reasoning.
- With a glorious history of more than 2.5 decades, NSC remains the first choice of students where they get the profound foundation of knowledge in Science, Management and Law streams of Higher Secondary Level.
- The campus of NSC is located at the heart of city i.e. Shantinagar, New Baneshwor which is easily accessible for all students who are living across the valley due to wide range of public commute network.
- The institution has rightly paved its path to the horizon of excellence and, as the name suggests, the institution lies at in the top for providing academic services for aspiring young students.
- We have our own physical infrastructures which provides the stability in management which fosters the environment in and out.
- Our teaching and non-teaching faculties are dedicated and focused professionals and are the best facilitators in their respective fields.
- On demand tutorials: We in NSC analyse results of every students they take through out the year and provide remedy classes and on demand tutorials. We also provide professional training programs for aspirants on the most trendy domains.
- Classes are conducted in both morning and day shifts with accommodation facilities.

ADMISSION PROCEDURES

Admission for secondary level education in NSC is highly competitive. As a rule, the students apply and they need to go through a fair and transparent but rigorous and revealing selection process.

Application Forms

Application forms for admission and exam entry are available at the college and also online at www.plus2.newsummit.edu.np. Applicants should submit these forms duly filled in with all supporting documents by the given deadline.

SCHOLARSHIPS

TEACHING PEDAGOGY

WHICH WE TRUST

THE CONSTRUCTIVIST APPROACH

The constructivist approach is based on the concept of constructivism. In NSC, we believe that learners create their own understanding of the world around them, and this understanding is based on experience through their everyday lives as they grow. Using specific experiences, students transform information they've accumulated into knowledge and understanding.

THE COLLABORATIVE APPROACH

The collaborative approach puts a big emphasis on collaborative learning, which is the idea that learners work together to gain a greater understanding of the information they've been presented with. The homely and friendly progressive environment in our campus boost the learners to capitalise each other's understanding of the information, and even their unique skills and resources which allows learners to create an environment where people can interact with each other by sharing experiences and knowledge which is done in a variety of ways, including

exchanging ideas and information, and even evaluating or monitoring somebody else's work.

THE REFLECTIVE APPROACH

The reflective approach focuses primarily on analysing what the teacher and learners are doing in the classroom. We encourage thinking about teaching practices and figuring out ways to improve them in an attempt to make learning processes more effective for a class of learners. We value students with different capabilities and respect their interests and apply different strategies to pave their ways of success. This can be done through processes such as self-evaluation and self-reflection, used as ways to essentially learn more about your own practice, improve a certain practice or to focus on problem learners are having.

THE INTEGRATIVE APPROACH

We apply this approach which makes a different view with the other teaching approaches in the sense that it tries to provide

learners with an environment where they can make connections between the current topic they're learning about and other topics they'll come across at different stages of the curriculum. This means that it tends to focus on specific connections between different bits of information, rather than facts in isolation. We help learners gain a broader understanding of the world around them by linking together bits of related information.

THE INQUIRY-BASED APPROACH

We are successful to make our ambience friendly inquiry - based approach that it encourages learners to engage in exploration, investigation, research and study because of which the relation between learners and tutors flourishes in a constructive way. It begins with presenting questions, scenarios or problems that require critical thinking to solve. This makes it incredibly effective when teaching in +2 level where the foundation topics are more easily learned through an understanding of processes rather than isolated facts.

CULTURE WE BUILD

SELF-DISCIPLINE

Discipline is a key to success in everyone's life. This quality helps students in handling their work, maintaining regularity in work and in managing their time well.

DILIGENT

A student should be determined towards studies or any work allotted to him/her. He/she should be ready to work hard in order to achieve his/her laid objectives. This is one quality that keeps the student consistent and eliminates procrastination.

COURTEOUS

Showing respect to teachers, school staff, seniors and fellow students is a sign of a good student. In fact, such students turn out as humble and courteous individuals. They are respected and loved everywhere.

TEAM PLAYER

A good student is the one who can work in a group, motivate others and yield productive output. Being positive, helpful, cooperative and friendly are all the traits of a good student. Such students become great team players and leaders when they grow up.

PUNCTUAL

Time is money so every student must value time. It is not an easy job to become punctual, but those who get hold of this trait are successful in their lives. Being in the class on time and doing homework and other activities on time helps the students to save their time and invest it into something productive.

CONFIDENT

This quality is something that portrays that a student is capable of doing things and that he believes in his abilities. Having a distinct voice among the crowd without being hesitant is a sign of a good student and a future leader.

RESPONSIBLE

Being responsible is the key quality that a good student must possess. This shows that the student can be bestowed upon with any work and he will do it without any failure.

A DIFFERENT PREPARATION @ NSC

OUR RESOURCES & FACILITIES:

COLLEGE BUILDING

The college has got its own three modern buildings with a suitable ground. The entire phenomena are set into the world class infrastructure and interiors with excellent furnishing decors so as to make it a congenial and conducive learning environment.

DISTINGUISHED TEAM OF FACULTY

At NEW SUMMIT college, we believe in strengthening capabilities of each student. We, therefore, adopt one to one approach / interaction in our classrooms where each student's queries are addressed sincerely. Our team and faculties reach out to every student for their problems, questions in a supportive inspiring and inclusive environment.

STUDENT CENTERED LEARNING

NEW SUMMIT college has a distinguished team of faculties since its inception. These pools of faculty members have earned years of experiences in various industries, academic institutions within and outside the country.

They bring the real world environment, cases and scenarios into the classrooms which has been an enriching experience for our students.

COLLEGE ATMOSPHERE

The college is located in a safe and peaceful environment at the heart of Shantinagar, New Baneshwor, Kathmandu. It is easily reachable for students and guardians. We have state of art infrastructure, spacious class rooms, well equipped labs and library.

INDUSTRY VISIT: AN EDUCATIONAL EXCURSION

We believe in all round development of our students. The theoretical knowledge sharing and interaction is not sufficient to broaden their horizons. We therefore take our students to various educational excursions and industry visits, where they will get a chance to see how products and services are developed, manufactured and delivered.

PROJECTS WORKS AND RESEARCHES

Students at NEW SUMMIT get opportunities from the market as well as from the faculties to engage themselves in various short and long term projects.

similarly, students are assigned to various research topics to contribute to the body of existing knowledge as per the curriculum of the industry. This equips them with practical knowledge of research tools and techniques, salesmanship, marketing and negotiation techniques and proficient use of MS office packages.

INDUCTION SEMINARS

Students have an opportunity to attend various orientation program to enable them to have a fun filled, inspiring and smooth transition to college life.

They are oriented about college policies, rules and regulations, procedures and resources for their engagement, learning and development.

MENTORING

Each student is given access to a mentor from an industry or from the pool of faculties that we have. These mentors advise them, support them and help them in their education, skill development, career counseling and placements. We have also formed a student support cell to look after various needs of the students.

AUDITORIUM

NEW SUMMIT has a multi-purpose auditorium hall with a capacity of 140 seats at a time. Different club activities, capacity development programs, seminars and workshops make it the most happening and lively space in the colleges.

CAFETERIA

A clean, spacious cafeteria offers a variety of hygienic meals at affordable price at the college. The cafeteria is open from early morning till the evening. It is a popular hub among students for meetings, fun, celebrations.

LIBRARY

The college has a well-stocked modern e-library with enough reference books, magazines, newspapers, internal journals like Harvard Business Review, Business week and other magazines.

CLASSROOM

All the classrooms are academically amiable and equipped with modern technology as multimedia, internet, wifi etc.

INTERNET AND WI-FI

The College has round the clock high Speed internet services.

LABS

We have modern computer labs for all programs with the seating capacity of approx. 36 students in each of the 4 labs. The electronic and hardware maintenance facilities are carried out in electronic lab. The college is also well equipped with science lab.

CLUBS/CELLS & SOCIETIES

A club is an association of students dedicated to particular interest or purpose and activities, who meet regularly and take part in shared activities. So in order to make a meaningful contribution to matters related to students' personal and professional growth, various clubs are formed in the college. Working in the clubs, they get opportunities in leadership, social responsibility, citizenship, shared decision-making, volunteerism, collaboration and student employment etc.

They receive huge support and guidance from faculties and market. The student-volunteers engage and participate in various social activities. These activities range from awareness campaigns to celebration of various international events like International Youth Day, World Health Day, World Environment Day, Blood Donation programs, and Cleaning Campaigns etc. We have various clubs and societies which are autonomous student bodies run by students themselves. They carry out various events, seminars, workshops, presentations, simulation exercises, competitions within the college and between colleges and universities that strengthen their IT and managerial skills, help develop interaction with industries thus garnering experience and exposure.

A. READERS' CLUB

The readers' club is an autonomous body formed to promote reading habit of the students. This club encourages students to participate in different book review sessions, budget review sessions etc. These activities instill strong ethical and moral values and empathy amongst our students. The readers publish a business magazine every year. They receive huge support and guidance from faculties and market in this intellectually stimulating event.

B. THE COLLEGE VOLUNTEERS' CLUB

The student volunteers engage and participate in various social activities. These activities range from awareness campaigns to celebration of various international events like International Youth Day, World Health Day, World Environment Day, Blood Donation Programs, and Cleaning Campaigns etc.

C. SPORTS CLUB

Besides regular academic activities, we often encourage students to organize, participate

and engage in various sports and athletic events. This is necessary for physical and sound mental health of our students. The sports club under the supervision of the college management organizes annual sports event (football, basketball, table-tennis, cricket etc.) every year. These activities inculcate team works, leadership qualities and a spirit of sportsmanship in our student.

D. BUSINESS CLUB

The business club organizes various guest lectures and interaction programs with industry leaders, Bankers and Entrepreneurs, etc. They actively participate in business simulation exercises. These activities, we hope, will create enthusiasm and inspire students in their endeavors. It also organizes various flagship events like "Business Plan Competition", "Idea Pitching Competition", "AD Design Competition", "Marketing and Sales Simulation Seminar", "Training on Share Market and Trading" etc.

E. IT CLUB/SOCIETY

IT Club is a club established in order to give individuals an opportunity to share and extend ideas, views and knowledge in the field of fast changing information technology of today. The club also organizes various national level IT related competitions on regular basis. Mega event TechTrix-2019 sent a ripple of excitement throughout the participants.

F. RESOURCE POINT

This facility in an academic support within the college that helps gains several sources information to advance the learning experience of students and teachers. It collects and organizes materials that are useful to the students. It's mission is to provide intellectual and physical access to current state – of – the – art materials, equipment and services.

G. BUSINESS/IT INCUBATION

It is a process of support for business with growth potential and is a catalyst tool for support to start – ups and early stage of new business ventures by providing them with the safe harbor, incentive resources, and development environment in which they can flourish. It helps addressing the hurdles and challenges of a new company like resources of fadom rigid labor regulations, finding a market for products and social and cultural issues.

H. PERSONALITY DEVELOPMENT PROGRAM

Personality refers to an individual's appearance, characteristics, attitude, mindset and behaviors with others. Personality development helps an individual to inculcate positive qualities like punctuality, flexible attitude, willingness to learn, friendly nature, eagerness to help others and so on. It makes us a confident individual who is appreciated and respected, wherever we go. It lays high emphasis on improving students' communication skills-

listening, speaking, reading and writing. So, our college organizes various programs to help develop these qualities.

L. KNOWLEDGE CENTRE

We give special emphasis on creation of knowledge and skills, based on current market trends. The Knowledge Center's purpose is to encourage collaborative efforts in the areas of academic and community building. This is always buzzing with various activities. Students are welcome to use this center for using it as per their needs. They can enhance various skills like soft skill, team-work, leadership skills, entrepreneurial skills etc. This center also extends its supports for learning case writing, article writing, book writing, book review, workshops, seminars, magazine or bulletin publication as well as exposure extracurricular activities/ academic and sporting. It is true that students Learn by connecting new knowledge and concept that they already know by connecting new meaning through interaction and varied approaches.

Team we rely upon

BACHELORS PROGRAMS

BSC. CSIT

The Bachelor of science in computer science and information technology (BSc.CSIT), is a 4 yrs /8 semester course , designed to provide the students with all sorts of knowledge and skills in the fields of information technology and computing. The program involves , in addition to conventional lectures, a great deal of practical and project works, and develops the underlying principles of both computer science and information technology and show how these principles can be applied to real world problems. It fosters the skills that are essential for both computer professional and IT specialist. The design and implementation of B.Sc. CSIT course offers new challenges when compared to the traditional computing environment. The recent emergence of global business , new technologies for data processing and data communication / networking environment , equip specialized science graduates to focus on professional careers in information Technology .

ADMISSION CRITERIA

ELIGIBILITY

Candidate must have +2/A level/CTEVT/Foreign University or equivalent in science with physics and mathematics with 100-100 full marks certificate level and must score at least c grade in all subjects or with second division.

ENTRANCE

The applicant must have passed the entrance test conducted by the university

INTERVIEW

All the successful candidates of written entrance test will be called for interview with parent/ guardian.

BCA

Bachelor of Computer Application (BCA) is a next highly demanded program run by NEW SUMMIT College. It is a 4-year/8-semester program, affiliated by Tribhuvan University, Faculty of Humanities and Social Sciences. It covers 126 credit hours in 4 years.

The objective of this program is to produce high quality computer application users and developers.

This having wide range of knowledge in the technical field. Students learn to solve computer-based problems of different types of business and industries.

ADMISSION CRITERIA

ELIGIBILITY

- Minimum D grade in each subject of 11 and 12 with CGPA 2.0 or more
- Minimum score of second division marks in 10+2, PCL or equivalent in any discipline
- Student who are waiting for grade 11 and 12 result can also apply. However they are to submit passed certificate of grade 11 and 12 the the time of admission

ENTRANCE

The applicant must have passed the entrance test conducted by the university

INTERVIEW

All the successful candidates of written entrance test will be called for interview with parent/ guardian

BBS
